Education

Universidade de Trás-os-Montes e Alto Douro (UTAD) — Vila Real, Portugal
B.Sc. in Informatics Engineering — *Sept. 2024 – June 2027 (Expected)*

Morgado de Mateus High School — Vila Real, Portugal
High School Diploma in Science and Technology — *Sept. 2021 – June 2024*

Certifications

Ethical Hacker Certification — Cisco
Cisco Networking Academy — *2026*

Cisco Certified Network Associate (CCNA) — Cisco
Cisco Networking Academy - In Progress — *Expected 2026*

Experience

Head of IT Department — June 2026 – Present
NEEI - Núcleo de Estudantes de Engenharia Informática UTAD — *Vila Real, Portugal*

- Direct the entire IT department within a 100-member student engineering association, overseeing digital infrastructure and student-facing services across the university.
- Lead full-stack development initiatives using **React.js**, **TypeScript**, **PHP**, and **JavaScript**, establishing Git workflows, repository standards, and code quality benchmarks.
- Conduct technical code reviews, mentor student developers, and drive architectural decisions to ensure secure, maintainable, and scalable internal tools.

Projects

Portfolio Website | *React, Tailwind CSS, Vite, Git* — 2026

- Designed and engineered a high-performance, fully responsive personal portfolio to showcase software engineering and cybersecurity projects.
- Implemented modern UI components with **React** and **Tailwind CSS**, built and bundled using **Vite** for optimized performance and fast load times.
- Deployed and managed live at ricardoguerra.dev with automated version control workflows.

Self-Hosted Linux Home Server | Linux, Docker, Docker Compose, Bash, Networking — 2024 – Present

- Architected and deployed a dedicated Linux home server running containerized microservices and automated media streaming workflows using **Docker** and **Docker Compose**.
- Configured local network architecture, static IP addressing, persistent storage volumes, and resource allocation to maintain 24/7 service availability.
- Implemented secure network access, firewall management, and Bash automation scripts for routine system maintenance, container updates, and backups.

Technical Skills

Languages: JavaScript, TypeScript, Python, C/C++, Java, SQL, HTML5/CSS3, PHP
Frameworks & Web Technologies: React, Node.js, Tailwind CSS, Vite
Networking & Cybersecurity: TCP/IP, Routing & Switching, Cisco Packet Tracer, Wireshark, Ethical Hacking
Tools & Platforms: Git, GitHub, Linux, Bash, Docker, VS Code
